

To Whom It May Concern at the FCC;

I find it absolutely unacceptable that Sinclair Broadcasting's is forcing its stations to air what amounts to an anti-Kerry "infomercial" on public airways in an effort to influence our presidential election. Such propaganda in itself has very little social value and represents an abuse of our public airwaves.

In my mind it clearly underscores the FCC's obligation to restrict media consolidation into the hands of a few.

As a taxpayer that contributes my hard earned money to the FCC I request that every effort be made to prevent the continued consolidation of our airwaves into the hands of the few. I also ask the FCC to ACT when the few take matters in their own hands in an attempt to improperly influence an election.

Yours Truly, Kirk J. Czymmek
